IQAC Report Summary

In pursuance of its action plan for performance evaluation, assessment and accreditation and quality up-gradation of institutions of higher education, the National Assessment and Accreditation Council (NAAC), Bangalore proposes that every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a quality sustenance measure. Since quality enhancement is a continuous process, the IQAC will become a part of the institution's system and work towards realization of the goals of quality enhancement and sustenance. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institutions. For this, during the post-accreditation period, institutions need to channelize its efforts and measures towards promoting the holistic academic excellence.

The K D K College of Engineering established Internal Quality Assurance Cell (IQAC) on 9th July 2016 with a vision *“To ensure quality culture as the prime concern for the K.D.K.College of Engineering through institutionalizing and internalizing all the initiatives taken with internal and external support”*. The IQAC in the college brought positive and encouraging changes in the attitude of faculty members. Faculty research & publication, faculty interaction with outside world, involvement in the campus enriching programs, up-gradation of knowledge through various programs, etc. were enhanced.

The IQAC supported & endorsed to organize programs under its quality initiative and also encouraged faculty members to attend conferences, workshops, FDP, STTP, etc. for up-gradation of their knowledge.

The list is a testimonial to the quality initiatives by the IQAC of the college.
