Session (2023-24)

Seminar Report on

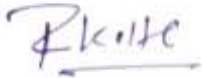

“Learn to Communicate Well and Reason For Lack of Confidence”

Department of Information Technology organized **Seminar on “Learn to Communicate Well And Reason For Lack of Confidence”** by Mr. Jitendra Gangwani, Jeet Pinnacle Spoken English Training Center, Nagpur dated on 11/09/2023 for second, third and final year students. In this session speaker told that English is an important means of communication in the world. As an international language, English is one of the foreign languages taught to students. The students must be able to compete in the current global era, where competition is growing tighter. One of the skills required by students is communication in English. Learning English plays a central role in students’ intellectual, social, and emotional development. It is a key to success as it is a lingua franca in various contexts including higher education settings. Speaking in a foreign language can be influenced by such psychological aspects as anxiety and self-confidence. The students who have high level of anxiety, worry, fear and low level of self-confidence in foreign language classes may have difficulties in developing their speaking ability. The objective of this

research was to find out whether there was a significant correlation between students' speaking anxiety, self-confidence, and their speaking achievement. The research used correlation design. Students with self-confidence have higher achievement. So, it is important for students to practice speaking English in the class, especially to improve the self-confidence when the students are communicating in English.

Post completion of the session students are suggested to develop this type of working environment in their academics. Session was successfully completed under the guidance of Dr. S. P. Khandait, HOD, IT, Dr. A. M. Badar, Vice-principal, Dr. C. C. Handa, Principal, KDKCE, Nagpur. In total 150 students and all the faculty members from department were present.
