Workshop on "Web Technology"

Department of Information Technology organized 6 days Workshop on "Web Technology" from 2nd Feb- 7th Feb 2018. Speakers are Alumni of Computer Technology (2014 Batch) 1. Kapil Newale 2. Nikhil Raut 3. Swapnil Murekar. During this workshop detailed learning on Web technology is taken place. General term referring to the many languages and multimedia packages that are used in conjunction with one another, to produce dynamic web sites such as this one. Each separate technology is fairly limited on its own, and tends to require the dual use of at least one other such technology. Therefore it could be concluded that all of the components that make up a site are interdependent on one another. This guide is intended to briefly introduce the beginner to each of these separate technologies, without attempting to teach anyone how to program. If students intend to study web design further, check our links section for many useful tutorial sites.

One week STTP on Data science using Python and R from 9 to 12 Feb 2018 organized by department of Information Technology, STTP conducted by Inisrar Mehdi, director, brainvisio Technologies Pvt Ltd., Hyderabad(Lemures Technologies).

Seminar on "Big Data"

Department of Information Technology organized Seminar On "Big Data" by Prof. Amogh Chitambar, NIT, Dharwad, Nagpur for 3rd and 4th year students on 22 Jan 2018. During conversation guest speaks about Big data is a term that describes the large volume of data – both structured and unstructured – that inundates a business on a day-to-day basis. But it's not the amount of data that's important. It's what organizations do with the data that matters. Big data can be analyzed for insights that lead to better decisions and strategic business moves. The importance of big data doesn't revolve around how much data you have, but what you do with it. Data is taken from any source and analyze it to find answers that enable 1) cost reductions, 2) time reductions, 3) new product development and optimized offerings, and 4) smart decision making.
