Date of Activity	28/09/2024		
No. of Students Involved:	Male: 15	Female: 35	Total: 50
Details of Invited Speaker	Mr. Anand Saxena and Mr. Abhishek Mishra		

Brief about an Activity	Department of Information Technology organized Seminar on “Scope of Data Science in Industry in upcoming years” by Mr. Anand Saxena and Mr. Abhishek Mishra ALEXLER Academy, Nagpur for Third year students dated on 10/01/2025 Data Science has evolved from a niche field to a cornerstone of modern industry. Its influence is set to expand, driven by technological advancements and the increasing reliance on data-driven decision-making. The guest explores the emerging trends and applications of Data Science across various sectors.
Objectives	<ol style="list-style-type: none"> 1. Assess Emerging Trends: Identify and analyze the latest advancements in data science technologies and methodologies shaping industry practices. 2. Evaluate Industry Applications: Examine how various sectors are integrating data science to enhance operations, decision-making, and customer engagement. 3. Forecast Future Impact: Predict the long-term effects of data science on industry landscapes, including potential disruptions and innovations.
Outcomes	<ol style="list-style-type: none"> 1. Skill Development Framework: A curated list of essential technical and soft skills required for professionals to excel in the data science domain, including proficiency in machine learning, data visualization, and ethical data handling. 2. Ethical Guidelines: Recommendations for organizations to implement ethical frameworks ensuring responsible data usage, addressing concerns like algorithmic bias and data privacy.

Notice

KDK College of Engineering
Nadanwan, Nagpur
Department of Civil Engineering

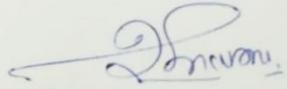

Notice

Dated: 17/08/2024

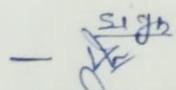

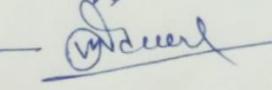

All the IIIrd and IVth Year B.Tech Civil Engineering students are here by informed that the "Concrete Mix Design (CMD-24)" workshop is commencing from 26/08/2024 to 31/08/2024. It is mandatory for all the students to registered for the workshop and the payment of Rs 100/- should be deposited to Mr Gadge on or before 27/08/2024.

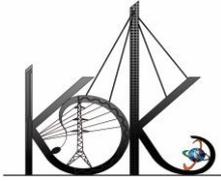

All students take note of it.

 Activity Report (2024-25)
 Civil Engineering Department

Name of the Activity:	One week Workshop on Concrete Mix Design (CMD-24)	
Date: 26 th to 31 st August 2024	Name of Coordinator: - Dr. B S Ruprai	
Time:- 10:30 AM to 5.30PM	Venue:- KDKCE	Number of Participants- 332 Nos
Support/Assistance	Ultratech Cement Ltd	

Brief Information about the Activity:

Topic/Subtopic of the Activity	One week Workshop on Concrete Mix Design (CMD-24)
Objective	The main objective are: 1) To achieve the designed/ desired workability in the plastic stage. 2) To achieve the desired minimum strength in the hardened stage. 3) To achieve the desired durability in the given environment conditions. 4) To produce concrete as economically as possible.
Methodology	Offline with Site Visit at RMC
Course Outcomes	<ul style="list-style-type: none"> Enrich participants with advancement in civil Engineering Practices Enabled Professional discussion and knowledge sharing during the deliberation.

No. of Students Involved:	Male: 41 Female: 40 Total: 81		
Association/ Collaboration	RGNIIPM Nagpur		
Details of Invited Speaker	Short Profile of Speaker	Photo of Speaker	
	<p>Shri Kumar Raju is working for more than 11+ years in Central Government Office under the Patent Office, Ministry of Commerce & Industry and presently working as Assistant Controller of Patents & Designs</p> <ul style="list-style-type: none"> • He is working as a program speaker at RGNIIPM Nagpur which is only Central Government National IPR Training Institute in India. • He completed M Tech In Industrial Engineering from IIT Delhi. • Bachelor of Engineering from G. B. Pant Engg College, Uttarakhand. • He has delivered many lectures on IPR across the country. • He was deputed by Government for training at Japan Patent office, Japan on Examination & IPR issues. 		
Brief about an Activity	Department of Computer Science & Engineering Organized one-day workshop on Intellectual Property Rights (IPR), Copyright and Patent Design Filling on 25/02/2025. During the workshop, Guest Shri Kumar Raju, Working as Assistant Controller of Patent & Design, RGNIIPM, Nagpur interacted with the students regarding intellectual property rights and patents & designs. He also enlightens and created great awareness among students and faculty members. He gave the live demonstration on how to fill the patent and copyright. The session covered various types of IPR, including patents, copyrights, trademarks, and trade secrets, emphasizing their importance in innovation projects.		
Objectives	The objective of the workshop is to be aware of Intellectual Property Rights for faculties, students and the research community.		
Outcomes	<ol style="list-style-type: none"> 1. Basic steps to be followed for filing a Patent Application. 2. The structure of Indian IPR System. 3. Procedures required converting a Research Work in to a Patent. 4. How to create a well-protected Innovation in the Institution.

K D K College of Engineering, Nagpur
Department Of Computer Science & Engineering
Activity Report (Session: 2024-25)

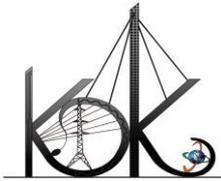

Category of the Activity:	Seminar
Title of the Activity	“Art of Writing Research Paper”
Coordinator	Prof. A. M. Kuthe Prof. D. A. Agrawal
Date of Activity	21 March 2025
No. of Students Involved:	Male: 30 Female: 18 Total:48
Details of Invited Speaker	Prof. Shankar Gadve Assistant Professor in SVPCET, Nagpur Pursuing PHD from amity University.
Brief about an Activity	The invited speaker explained in detail about the various key elements involved in writing a research paper. The session covered all the main headings of the research paper including title, abstract, introduction, literature review, methodology, results and discussed how to cite the reference. He emphasized the need for a concise title reflecting the essence of research and also mentioned that the conclusion should include the summary, implications and suggestions for future research.
Objectives	1. Discuss appropriate research methodologies and techniques. 2. Encourage critical thinking and analysis of various research works and methodologies. 3. Discuss issues like plagiarism and how to avoid it.
Outcomes	1. Improved understanding of Research paper structure. 2. Effective Literature Review Techniques. 3. Knowledge of plagiarism remove and Publication Process.

Report

Activity Report on Four-Day Program: 'Elevate & Excel: Communication Skills for Future'

Organized By: Department of Civil Engineering, KDK College of Engineering

Resource Person: Dr. Anita Rao, Corporate Trainer, M R International, Nagpur

Venue: Room No- A 123, Civil Engineering Department

Duration: 24th to 27th March 2025

Coordinator of the Program: Dr. Pallavi Bisen

Total No. of Participants: 49 (II Semester B.Tech Civil Engg. Students)

Introduction:

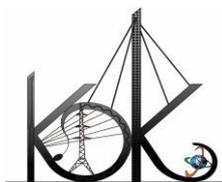

The Department of Civil Engineering at KDK College of Engineering successfully organized a four-day training program titled '**Elevate & Excel: Communication Skills for Future**' from **24th to 27th March 2025 from 3:15p.m to 5:30 p.m.** The program was specifically designed for **first-year students (II Sem Civil Engineering)** to enhance their communication skills, an essential component for professional and personal development.

Objective:

The primary objective of this program was to equip students with effective communication strategies, enabling them to articulate their thoughts confidently and prepare them for future professional endeavours.

Details of the Program:

The program was conducted by **Dr. Anita Rao, Corporate Trainer from M R International, Nagpur**, who brought extensive expertise in communication skill development. The sessions covered various aspects of communication, including:

Affiliated to Rashtrasant Tukadoji Maharaj Nagpur University

- **Day1** : Introduction to Communication Skills, Importance of Verbal and Non-verbal Communication.
- **Day 2** : Active Listening, Public Speaking, and Overcoming Communication Barriers.
- **Day 3** : Business Communication, Email Etiquette, and Effective Presentation Skills.
- **Day 4** : Group Discussions, Mock Interviews, and Feedback Session.

Participation and Engagement:

The program witnessed active participation from first-year students, who engaged in **interactive exercises, role-plays, and real-life case studies** to enhance their communication abilities. The hands-on activities helped students build confidence in speaking and presenting effectively.

Conclusion:

The four-day program was a **resounding success**, providing students with invaluable insights into the importance of communication skills in their academic and professional journey. **Dr. Anita Rao** received appreciation from both students and faculty for her **engaging and insightful sessions**.

The Department of Civil Engineering extends gratitude to **Dr. S. R. Satone, Head of the Department**, for his support in organizing the event, and **Dr. Pallavi Bisen, Program Coordinator**, for the seamless execution of the program.

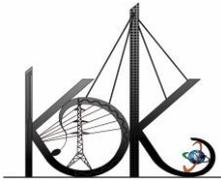

Acknowledgment:

A special thanks to the management, faculty members, and students for their cooperation in making this event a success. Feedback from students reflected their enthusiasm and appreciation for the knowledge gained during the program.

Details of visited Site	Ganpati Mandir, Adasa		

Brief about an Activity	The Department of Information Technology at KDK College of Engineering, Nagpur in association with DEV-IT committee, conducted an outreach program at Adasa Temple, Adasa on 13 September, 2024. The session aimed to be aware of children, students and adults. Street Play named “Awareness on social media” was based on how youth can come together for the upliftment of our country. Elements of script writing and acting were learned by students by the DEV-IT Committee.
Objectives	1) Enable students to learn and apply skills in scriptwriting and acting for conveying impactful social messages. 2) Involve students in event coordination and execution, helping them develop leadership, planning, and time management skills.
Outcomes	1) Students learned the fundamentals of scriptwriting and theatrical expression, allowing them to creatively convey important social messages. 2) The collaborative nature of the street play fostered team spirit, cooperation, and coordination among team members.

Activity Report

Objective –

Social Media is a huge reason for people to connect with people from other states as it is a huge platform for those creators who like to influence people and share informative content and ideas with the world. In this technology-driven world, everyone is on social media whether it is adults or children. There are both positive and negative effects of using excessive social media. Nowadays, students are so indulged in social media that they hardly have time for themselves and for family. We all know that Social media is playing a huge role in everyone’s lives as they are connected with people around the world. Students are highly affected by social media as they spend their entire day on social media. It is very crucial for students to become aware of its negative effects. Additionally, parents should pay close attention to their children and set time restrictions on how much time they should spend on social media.

Description-

The Department of Information Technology at KDK College of Engineering, Nagpur in association with DEV-IT committee, conducted an outreach program at Adasa Temple, Adasa on 13 September, 2024. The session aimed to be aware of children, students and adults. Street Play named “Awareness on social media” was based on how youth can come together for the upliftment of our country. Elements of script writing and acting were learned by students by the DEV-IT Committee. Total 39 students were part of this act, as part of pre-production, production and execution work. The street play was a hit and was hugely appreciated by the people, faculties and students.

Outcome –

Positive Effect and Negative Effect of Social Media on Students. There is no denying using social media for students but too much of something can be dangerous for their health and well-being. It allows students to stay in touch with informative news and academics. Through social media, students get to learn new things and connect with various people. On the other hand, excessive use of social media leads to harmful effects on adults and students. Social Media not only has a positive effect but also a negative impact on students. It distracts and diverts their mind from studies to unnecessary things. Some positive and negative effects of social media on students that every parent should guide their kids:

ACADEMIC SUPPORT: Social media helps students in their academics as students can access a wealth of informative knowledge. Students have access to online educational resources where they can understand better if they are absent from class.

BUILDING CONFIDENCE: If students are well-confident in introducing themselves in front of people confidently then they are going to have great fortune full of competitors. Building confidence is compulsory for students to have prosperous lives. Social media helps students to socialize with other people and enables them to enhance their confidence level.

CONNECTIVITY: Through social media, people can connect with various people around the world and make new friends. It is a huge platform where everyone can share their thoughts, ideas and feelings with one another. Additionally, social media promotes connectivity between people and countries.

OFFERING OPPORTUNITIES: Social media platforms offer various learning opportunities to students. They get a chance to explore their interests. Additionally, social media provides valuable learning skills which help students to grow better. There are millions of influencers who use social media in today's time to inspire young learners to find their innate capabilities. Students get inspired by them and follow their hearts to achieve their dreams.

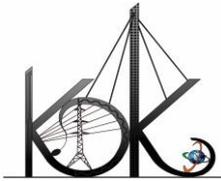

DISTURBANCE IN STUDIES: Social media is also a major concern for every parent. Students spend most of their time scrolling and watching videos for entertainment. They are not focussing on their studies effectively as social media is affecting their learning schedule.

SOCIAL MEDIA ADDICTION: Students are so addicted to social media that they share everything publicly which can be misused. Addiction to something is very harmful to the emotional, mental and physical health of students. They like to spend their time watching videos on YouTube, playing games, chatting and so on.

CYBERBULLYING: Cyberbullying happens when a person starts torturing, threatening, or abusing someone digitally. It is very dangerous and it happens a lot everywhere in the world.

The Department of Information Technology at KDK College of Engineering, Nagpur in association with DEV-IT committee, conducted an outreach program at Adasa Temple, Adasa on 13 September, 2024. The session aimed to be aware of children, students and adults. Such initiatives typically focus on positive and negative effect Of Social Media On Students

Students had actively participated and were fully involved in the activities. This activity is beneficial for created great awareness among students and faculty members. Dr. Mrs. S. P. Khandait, Head of Department of Information Technology presided the program with faculty members from all the other departments. Dr. Valsson Varghese, Principal, and Dr. A. M. Badar, Vice-Principal praised efforts taken by, Prof. S. S. Ganorkar, Prof. R. R. Kolte Event Co-ordinator for organizing this program.

Brief about an Activity	The Department of Information Technology at KDK College of Engineering, Nagpur in association with DEV-IT committee, had organized a ‘Spreading Joy’ at Zilla Parishad Primary School, Adasa on 13 September, 2024. This educational visit was organized under the guidance of Prof. R. R. Kolte and Prof. J. D. Thakre. The visit was to create awareness in students for Zilla Parishad Primary School.
Objectives	1) Encourage students to actively contribute to society by engaging with underprivileged children and spreading positivity. 2) Sensitize students to the challenges faced by students in rural or government schools, and inspire action toward bridging educational gaps.
Outcomes	1) Students developed a deeper understanding of the challenges faced by children in rural or under-resourced schools, fostering empathy and compassion. 2) Students became more conscious of their role as socially responsible citizens and the importance of contributing positively to the community.

Report

Matoshree Old Age Home

Date: 13 Sept. 2024

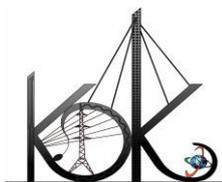

Activity Report

As part of the subject community health nursing activity we had planned a field visit activity. As scheduled along with the The Department of Information Technology at KDK College of Engineering, Nagpur in association with DEV-IT committee students had visited THE OLD AGE HOME “ **Matoshree** ” on **13 September 2024 at Adasa**. This educational visit was organized under the guidance of Prof. R. R. Kolte and Prof. J. D. Thakre. Objective of the visit was to create awareness in students for OLD AGE HOME. The visit was informative, as a record of 39 students participated in it. It was a 2 hour visit which started at 3:00 pm.

Description- The Department of Information Technology at KDK College of Engineering, Nagpur in association with DEV-IT committee, conducted an outreach program at Matoshree Old Age home on 13 September, 2024. Total 39 students with two faculties visited. Each person had a unique story to share, filled with tales of love, loss, triumphs, and hardships. Their narratives transported me to a different era, where life seemed simpler yet filled with challenges.

Outcome –

The caretaker staff gave information about Matoshree. There were 60 elderly inmates (35 male and 25 female). The students of the college interacted with the elderly followed by an entertainment program with music, play and dance. The inmates were very happy and blessed everyone. All of them were above the age of seventy to seventy-five. They are all financially dependent on their families or on charity. Their physical condition is good. There are many recreational facilities available to them and these facilities were properly used by them. However, all of them were lonely and craving for love and affections. We spoke to them, shared our love and they sang songs for us. Some of our Students danced for them; they also started dancing with us. They shared their sadness and personal stories with us. However, the care shown to them by the helping hands at the home was indeed inspiring. Finally, we left with a heavy heart from them. It was a great time spent with them; we are really blessed for this opportunity.

Department of Information Technology Outreach Activity Report (Session: 2024-2025)

Title of the Activity	Visit to Matoshree Vrudhashram, Adasa		
Date of Activity	13-09-2024		
No. of Students Involved:	Male: 21	Female: 18	Total: 39
Details of Visited Site	Matoshree Vrudhashram, Adasa		

Brief about an Activity	<p>The Department of Information Technology, in association with Dev-IT at KDK College of Engineering, Nagpur, organized a visit to Matoshree Vrudhashram Adasa on 13th September 2024. The purpose of the visit was to contribute to a social cause by interacting with the elderly residents and providing them with necessary support.</p> <p>During the visit, students and faculty members from the Department of Information Technology, along with volunteers from Dev-IT, donated a token amount as a charity to the Vrudhashram. The funds were intended to support the welfare and well-being of the elderly individuals living there. The activity also served as an opportunity to instill the values of empathy, community service, and social responsibility among the students.</p> <p>The participants spent time with the residents, engaging in conversations and spreading positivity. It was a fulfilling experience that highlighted the importance of contributing to society and helping those in need.</p>
Objectives	<p>1)The visit could be aimed at fostering a sense of social responsibility among students.</p> <p>2)The event may have aimed to develop empathy and compassion among students for the elderly, promoting understanding and sensitivity towards their living conditions.</p>
Outcomes	<p>1)Students and faculty would have gained a deeper understanding of the challenges faced by elderly people, especially those residing in old age homes.</p> <p>2)Engaging with people from different generations would have helped develop patience, active listening, and compassion.</p>

Objective: -

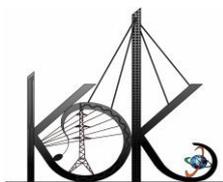

The cleaning drive at Ram Temple, Ramtek, was organized by the DEV_IT Students Forum of the I.T. Department, KDK College of Engineering, with the aim of promoting cleanliness and environmental awareness. This initiative was part of a broader effort to support the national Swachh Bharat Abhiyan and encourage responsible behavior among visitors.

One of the key goals was to engage students in meaningful community service by involving them directly in cleaning activities. Through the display of awareness posters and installation of dustbins with eye-catching stickers, the team worked to educate people on proper waste disposal practices in and around the temple premises.

Additionally, the drive focused on improving the environment for animals and birds by cleaning existing water pots and placing small bowls of water near trees. These efforts reflected not only concern for hygiene but also compassion for all living beings sharing the space.

Description: -

The Cleaning Drive at Ram Temple, Ramtek, was a one-day community outreach initiative conducted by the DEV_IT Students Forum of the Information Technology Department, KDK College of Engineering. A team of twenty students, accompanied by two faculty members, actively participated in this noble cause with the aim of promoting cleanliness and spreading awareness among visitors and locals.

During the event, the students took several impactful steps, including placing colorful awareness posters within and around the temple premises. These posters carried important messages related to hygiene, cleanliness, and responsible behavior. To support proper waste disposal, dustbins were installed at strategic locations, and eye-catching stickers were added to draw attention.

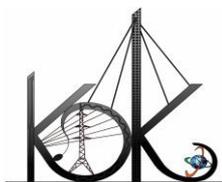

The team also cleaned areas surrounding the temple, removed litter, washed animal water pots, and arranged small bowls of water for birds under nearby trees. The volunteers even interacted with visitors who were found littering and politely guided them on proper waste disposal. The overall drive reflected a strong sense of responsibility and community spirit among the students while preserving the sanctity and cleanliness of the holy site.

Outcomes: -

The Cleaning Drive at Ram Temple, Ramtek, had a meaningful impact on both the environment and the participants involved. It helped improve the hygiene and appearance of the temple premises while also raising awareness among the visitors about responsible waste management. The students not only contributed through physical work but also learned valuable lessons in teamwork, leadership, and social responsibility.

Key outcomes of the event include:

- **Improved cleanliness** around the temple due to removal of litter and placement of dustbins.
- **Positive public response** to awareness posters, leading to better waste disposal practices among visitors.
- **Cleaned and restored** water pots for animals and arranged water bowls for birds, supporting local wildlife.
- **Development of life skills** such as coordination, communication, and team spirit among the students.
- **Active engagement with the community** through respectful guidance to those who were improperly disposing of waste.

Conclusion: -

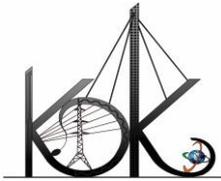

The Cleaning Drive at Ram Temple, Ramtek, was a successful initiative that combined social awareness, environmental care, and student participation. It reflected the spirit of teamwork and responsibility while promoting the importance of cleanliness in public places. The event not only benefited the community but also enriched the students with valuable life lessons.

Impact Analysis:-

On February 28, 2025, the Cleaning Drive at Ram Temple, Ramtek, created a meaningful impact on both the environment and the people involved. The initiative led to a visible improvement in the temple's cleanliness and inspired behavioural change among several visitors. By installing dustbins and awareness posters, the team helped establish a cleaner and more organized environment that encouraged responsible actions.

On a social level, the event successfully raised awareness about hygiene and waste management respectfully and engagingly. Visitors responded positively, with many appreciating the effort and actively using the facilities provided. The interaction with individuals who were initially unaware of proper waste disposal also showed signs of immediate improvement in habits.

In summary, the drive not only achieved its objective of cleanliness but also had a lasting impact on public awareness and student development.

5) Expert Talk on Mental Well-being for Professionals

KDK COLLEGE OF ENGINEERING, NAGPUR DEPARTMENT OF CIVIL ENGINEERING

NOTICE

Expert Talk on "*Mental Well-being for Professionals*"

The Department of Civil Engineering is organizing an Expert Talk on "Mental Well-being for Professionals" to promote awareness about mental health and stress management in professional life. The session will be conducted by esteemed experts from the medical and engineering fields.

Date: 08-03-2025

Time: 11:00 a.m onwards

Venue: Civil Seminar Hall

The event will be graced by:

Expert Speaker & Chief Guest:

Dr. Manjusha Giri, President, Indian Medical Association, Nagpur Centre

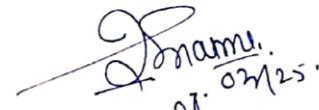

Guests of Honour:

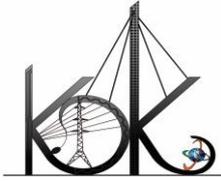

Er. P. P. Deshpande, President, ICI-NC

Er. Adwaita Pachunde, Project Coordinator (Tech), Ashoka Buildcon Ltd., Nagpur

All students, and faculty members are invited to attend this insightful session. Your presence will make this event a great success.

Expert Talk Report

on

Mental Well-being for Professionals

Date- 8 March 2025 (Session- 2024-25)

The Department of Civil Engineering successfully organized an expert talk on "**Mental Well-being for Professionals**" for first to final year students of B Tech Civil Engg. The event aimed to highlight the significance of mental health in professional life and provide insights on maintaining a balanced and healthy mindset in a demanding work environment. **A total of 186 students were present for the talk.**

The session was graced by eminent personalities:

- **Expert Speaker & Chief Guest:** Dr. Manjusha Giri, President, Indian Medical Association, Nagpur Centre
- **Guest of Honour:** Er. P. P. Deshpande, President, ICI-NC
- **Guest of Honour:** Er. Adwaita Pachunde, Project Coordinator (Tech), Ashoka Buildcon Ltd., Nagpur

The program commenced with a warm welcome by the Head of the Department, followed by the felicitation of the esteemed guests. The Principal of the institution delivered the opening remarks, emphasizing the importance of mental well-being in professional and academic life.

On the same day, **Dr. Manjusha Giri** and **Er. Adwaita Pachunde** were felicitated for their remarkable achievements in their respective fields. This special recognition coincided with **Women's Day**, adding significance to their contributions and inspiring the audience with their accomplishments.

Dr. Manjusha Giri, in her insightful talk, elaborated on stress management techniques, work-life balance strategies, and the importance of mental resilience. She highlighted various psychological aspects affecting professionals and suggested practical methods to maintain mental well-being. Her expertise and interactive approach captivated the audience, making the session highly engaging and informative.

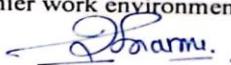

Er. P. P. Deshpande shared his valuable experiences from the civil engineering field, focusing on how professionals can manage workplace challenges effectively while ensuring mental stability. He stressed the role of professional ethics, teamwork, and mindfulness in achieving overall well-being.

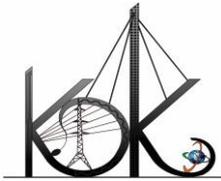

Er. Adwaita Pachunde provided a perspective from the construction industry, discussing the pressures faced by engineers and project managers. He suggested time management strategies and self-care practices essential for maintaining a positive mental state in high-pressure environments.

The session concluded with an interactive Q&A round where students and faculty members actively participated, seeking guidance from the experts. The vote of thanks was proposed by the program Coordinator, **Dr. Pallavi Bisen** expressing gratitude to the esteemed guests, faculty members, and participants for making the session a grand success.

The event proved to be an enlightening experience, reinforcing the importance of mental well-being in professional life and equipping attendees with practical tools to foster a healthier work environment.

Activity Report

K D K College of Engineering, Nagpur
 <Department Of Computer Science & Engineering>
 Activity Report (Session: 2024-25)

Category of the Activity:	Expert Lecture
Title of the Activity	Important of Discipline & Value of Professional Growth in the Organization
Coordinator	Prof. V. R. Surjuse Prof. S. S. Chahande
Date of Activity	27/03/2025
No. of Students Involved:	Male: 27 Female: 42 Total: 69
Details of Invited Speaker	Mr. Sarang Warudkar is a director of Shree convent and high school. He is an engineering graduate in Mechanical engineering and has done post-graduation in MBA from Delhi. He is also perusing Ph.D. in management. Mr. Warudkar has 14 years of industry and academic experience. He worked as a business manager in TATA steel for 2 years where he was a business manager for the entire vidarbha region and was looking after the steel pipe section of a company. He has 10 years of academic experience, he worked as an assistant professor in Tirpude Institute of Management Education for BBA, BCCA and MBA and has expertise in many areas such as operation research, international business, supply chain management and marketing management.
Brief about an Activity	An expert lecture was conducted for students on the significance of discipline and the value of professional growth in an organization. The session emphasized how discipline plays a crucial role in shaping an individual’s career, fostering responsibility, time management, and ethical behavior. The expert contribute to professional growth and long-term success. Through real-world examples and interactive discussions, students gained insights into workplace expectations, career development strategies, and the importance of maintaining a positive and goal-oriented attitude. The session aimed to prepare students for their future careers by instilling key professional values and work ethics.
Objectives	Educate students on how discipline fosters responsibility, time management, and ethical behavior in personal and professional life. Define discipline and its role in career success.
Outcomes	<ol style="list-style-type: none"> 1. Students gained awareness of how discipline contributes to personal and professional success. 2. Participants understood the need for continuous learning, skill development, and career planning for long-term success in an organization. 3. The session instilled values such as punctuality, commitment, and workplace ethics, preparing students for their future careers.

REPORT ON Expert Talk

The esteemed speaker began the session by emphasizing the role of discipline in personal and professional life. He elaborated on how discipline fosters consistency, efficiency, and accountability, which are critical attributes in any professional environment. The lecture also covered the following key aspects, Understanding Discipline in Professional Life, Importance of self-discipline and time management, developing a habit of punctuality and commitment. The impact of discipline on career success. He also discuss the Value of Professional Growth i.e. continuous learning and skill enhancement. The necessity of adaptability and resilience in a dynamic work environment. Role of networking and mentorship in professional growth. The session was highly interactive, with students actively participating in discussions and Q&A rounds. The speaker shared real-life experiences and case studies that highlighted how discipline and professional growth contribute to long-term success. The expert lecture provided valuable insights into the essential traits required for success in professional life. Students learned the importance of discipline as a foundation for achieving excellence and the need for continuous learning to stay competitive in the job market. The session concluded with a vote of thanks to the speaker for their valuable contribution.

Invitation

To,
Mr. Kunal Singh Chauhan
The Art of Living Youth Faculty, Nagpur
Subject: Invitation as a Guest Speaker

Respected Sir,

The Department of Mechanical Engineering in association with Institution's Innovation Council, is going to organize a Guest Lecture on "Mental Hygiene for Stress Free Study" on 12/03/2025 at 3.00 p.m.

We hereby extend a hearty invitation to you as a Guest Speaker for the above program.

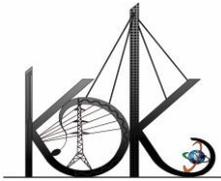

Kindly take this request in right earnest and guide to our students.

Thanks,

V. N. Mujbaile

Respected Sir,		
The Department of Mechanical Engineering in association with Institution's Innovation Council, conducted a Guest Lecture on "Mental Hygiene for Stress Free Study" on 12/03/2025 at 3.00 p.m.		
You have accepted our invitation as a Guest Speaker and guided our students on above. Through your lecture, students got aware about mental health, hygiene and how to do stress free study. Your guidance in this area is more valuable and necessary for the students. Its impact is definitely helpful for them in their exams. We are thankful to you.		
We are confident you will extend the same co-operation in future.

Activity Report (Session: 2023-25)

Category of the Activity:	Skill Awareness Program
Title of the Activity	Impact of Biological Clock in Lifestyle Management
Coordinator	Prof.. M. D. Choudhari
Date of Activity	05-03-25
No. of Participants:	Male: 09 Female: 39 Total: 48
Objectives	1.This program mainly aims at providing an opportunity for students to enrich their knowledge and skill in the area of biological clock in lifestyle management 2. Exposure to various impact of biological lifestyle.
Outcomes	1. To get awareness of biological clock in lifestyle management. 2. Maintain the overall health.

Subject : Invitation as a guest speaker.

Respected Madam,

It's our kind pleasure, to invite you as a guest speaker for **Impact of Biological Clock in Lifestyle Management** on 10/03/2025 at Artificial Intelligence and Data Science department, K.D.K. College of Engineering, Nagpur.

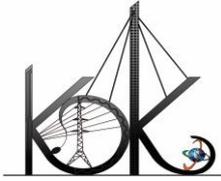

I would like to extend a formal invitation to serve you as a guest speaker. We believe your presence and discourse will elevate the overall .We are confident our faculties and students will gain immense value from your address.

Kindly convey your availability at the earliest. It would be an enormous privilege to have you with us as a speaker. We eagerly look forward to your positive confirmation.

Thanking you in anticipation.

Yours sincerely,

Dr.S.M.Malode **Head**
Department of Artificial Intelligence
Head of Department, & Data Science

Subject : Appreciation Letter as a Guest Speaker.

Respected Madam,

I am writing this letter to express my deepest gratitude to you as a guest speaker for **Impact of Biological Clock in Lifestyle Management** on 10/03/2025 at Artificial Intelligence and Data Science Department, K.D.K. College of Engineering, Nagpur.

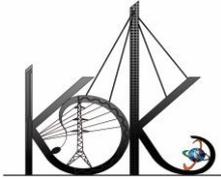

Your excellent in this area, combined with your desire to share your knowledge with us, makes us eager to learn Life skills. Your passion for the subject and experience have sparked Faculties and student interest in it and ultimately helped them to excel. For all this, I wish to express my appreciation. We are confident that we will gain immense value from your address.

I hope this letter adequately conveys my gratitude for everything you have done for our students.

Thanking you in anticipation.

Yours sincerely,

Dr.S.M.Malod Head

K D K College of Engineering, Nagpur Department of Information Technology Activity Report (Session: 2024-2025)

Title of the Activity	Guest lecture on “Generative AI and GAN”		
Date of Activity	12-09-2024		
No. of Students Involved:	Male: 52	Female: 33	Total: 85
Details of Invited Speaker	Dr. Nidhi Lal, an esteemed faculty member from VNIT, Nagpur.		

Brief about an Activity	The Department of Information Technology at KDK College of Engineering, Nagpur, organized a guest lecture on “Generative AI and GAN” on September 12, 2024 presented by Dr. Nidhi Lal, an esteemed faculty member from VNIT, Nagpur. Dr. Nidhi Lal shared her expertise in AI, explaining the foundational concepts of GANs, which involve two neural networks—the generator and the discriminator—working in tandem to create realistic data. Through real-world examples, she demonstrated the applications of GANs in image generation, video synthesis, and other areas where AI can generate high-quality, realistic content. Attendees also had the opportunity to engage in discussions, ask questions, and explore practical insights into how generative AI technologies are transforming fields such as healthcare, entertainment, and art.
Objectives	<ol style="list-style-type: none"> 1. To help students understand the core principles behind generative artificial intelligence and how it differs from traditional AI approaches. 2. To provide a clear conceptual understanding of how GANs operate through the interaction of two neural networks—the generator and the discriminator. 3. To make students aware of the latest trends and developments in the field of AI and how they are shaping the future of technology.
Outcomes	<ol style="list-style-type: none"> 1. Students gained a clear and structured understanding of generative AI concepts, especially the working mechanism of Generative Adversarial Networks (GANs). 2. Exposure to AI-specific terminology and concepts helped students develop their technical language and comprehension in advanced AI topics. 3. The session inspired students to consider generative AI as a potential area for final-year projects, research papers, or internships.

Guest Lecture on “Generative AI and GAN”

Date: 12 Sept. 2024

Activity Report

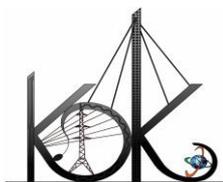

Objective – To introduce the principles and applications of generative AI, with a focus on Generative Adversarial Networks (GANs).

Description- The Department of Information Technology at KDK College of Engineering, Nagpur, organized a guest lecture on “Generative AI and GAN” on September 12, 2024 presented by Dr. Nidhi Lal, an esteemed faculty member from VNIT, Nagpur. This event was a part of the department's initiative to provide students with insights into cutting-edge developments in artificial intelligence and machine learning.

Dr. Nidhi Lal began the session by introducing the concept of generative AI, emphasizing how AI systems can create new content rather than simply analyzing existing data. She delved into the technical workings of Generative Adversarial Networks (GANs), which consist of two neural networks—the generator and the discriminator—that work together to produce realistic synthetic data. Through examples and simplified explanations, illustrated how GANs are trained, how the generator learns to create data, and how the discriminator refines this data by identifying and correcting errors. This iterative process allows GANs to produce high-quality outputs.

The lecture highlighted various practical applications of GANs, such as image and video generation, audio synthesis, and even deep fake technology. Dr. Nidhi Lal explained that GANs are not only tools for artistic creation but are also being applied in fields like healthcare (for creating synthetic medical images for training purposes), entertainment, and autonomous systems. She also touched upon ethical considerations and challenges with GAN technology, particularly regarding its potential misuse in areas like fake content creation.

In addition to the lecture, Dr. Nidhi Lal engaged with the audience through an interactive Q&A session. Participants were encouraged to explore how generative AI could be applied in their own projects and research. Students were particularly curious about the prerequisites and tools for working with GANs, prompting Dr. Nidhi Lal to offer guidance on resources and skills beneficial for a career in AI.

“Service to the Society through Quality Technical Education”

KDK College of Engineering, Nagpur

(Accredited by NAAC & NBA - CE, EE, ME, ETC, CSE)

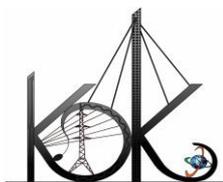

Approved by AICTE, Recognized by UGC under Section 2(f) of the UGC Act, 1956

Affiliated to Rashtrasant Tukadoji Maharaj Nagpur University

Outcome

At the end of this event students will be able to:

1. **Enhanced Understanding of Generative AI:** Participants gained a clear understanding of generative AI, particularly the structure and function of Generative Adversarial Networks (GANs), including the roles of the generator and discriminator networks.
2. **Insight into Practical Applications:** Students and faculty learned about diverse applications of GANs in fields such as image and video synthesis, audio generation, healthcare, and entertainment, inspiring ideas for innovative projects.
3. **Awareness of Ethical Considerations:** The session highlighted ethical concerns associated with GANs, such as the creation of fake content, promoting awareness of responsible AI use.
4. **Skills and Resources Guidance:** Dr. Lal provided participants with guidance on the tools, prerequisites, and resources needed to work with GANs, which is beneficial for those interested in further exploration or a career in AI.
5. **Inspiration for Research and Projects:** The lecture inspired participants to consider applying generative AI concepts in their own research and projects, fostering a spirit of innovation and inquiry within the field.

K D K College of Engineering, Nagpur Department of Information Technology Activity Report (Session: 2024-2025)

Title of the Activity	Guest Lecture on “Agile Project Management with SCRUM Framework”		
Date of Activity	28/09/2024		
No. of Students Involved:	Male: 29	Female: 39	Total: 68
Details of Invited Speaker	Mr. Gunwant Mankar, IT Manager , Bank of Baroda, Mumbai		

Brief about an Activity	Department of Information Technology organized Guest Lecture in association with ISTE, IE for third & final year students on Agile Project Management with SCRUM Framework on 28 September 2024 was delivered by Mr. Gunwant Mankar, IT Manager , Bank of Baroda, Mumbai an expert in Agile methodologies. The purpose of this lecture was to introduce participants to the Agile approach to project management, with a special focus on the SCRUM framework, and to provide valuable insights into managing projects more effectively in fast-paced, dynamic environments. The guest lecture began with a comprehensive introduction to Agile Project Management. Agile, which emphasizes iterative development, flexibility, and close collaboration between teams and stakeholders, was defined as a response to traditional, rigid project management methods.
Objectives	<ol style="list-style-type: none"> 1. Introduce Agile Methodology: Provide a comprehensive understanding of Agile principles, emphasizing its iterative approach to project management. 2. Deep Dive into Scrum Framework: Explore the Scrum framework as a subset of Agile, detailing its roles, events, and artifacts. 3. Discuss Challenges and Solutions: Identify common challenges faced during Scrum adoption and discuss strategies to overcome them.
Outcomes	<ol style="list-style-type: none"> 1. Enhanced Understanding: Participants will gain a solid grasp of Agile principles and the Scrum framework. 2. Improved Project Management Skills: Attendees will learn to apply Scrum practices to manage projects more efficiently.

AGILE Project management with SCRUM Framework

Date: 28 Sept. 2024

Activity Report

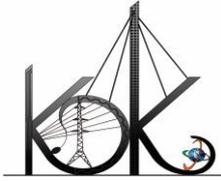

Objective: To introduce participants to the Agile approach to project management, with a special focus on the SCRUM framework, and to provide valuable insights into managing projects more effectively in fast-paced, dynamic environments.

Description:- Department of Information Technology organized in association with ISTE, IE and DEV-IT a Guest Lecture for third & final year students on Agile Project Management with SCRUM Framework on 28 September 2024 was delivered by Mr. Gunwant Mankar, IT Manager, Bank of Baroda, Mumbai an expert in Agile methodologies. The purpose of this lecture was to introduce participants to the Agile approach to project management, with a special focus on the SCRUM framework, and to provide valuable insights into managing projects more effectively in fast-paced, dynamic environments.

The guest lecture began with a comprehensive introduction to Agile Project Management. Agile, which emphasizes iterative development, flexibility, and close collaboration between teams and stakeholders, was defined as a response to traditional, rigid project management methods. The speaker emphasized that Agile methodologies are particularly beneficial in projects where requirements and solutions evolve over time.

The main focus of the lecture was on the SCRUM Framework, one of the most widely used Agile methodologies. The SCRUM approach is designed to help teams deliver high-quality products through well-defined roles, structured processes, and collaborative practices.

Outcome:- Mr. Gunwant Mankar sir discussed how adopting SCRUM fosters a culture of continuous improvement. The Sprint Retrospective was emphasized as a crucial practice that helps teams reflect on their processes and become more efficient over time. Real-life examples of companies like Bank of Baroda were shared, illustrating how they have adopted SCRUM to manage product development and increase customer satisfaction. The speaker also highlighted the role of tools like Jira and Trello in supporting SCRUM by enabling easy tracking of backlogs, sprints, and team progress.

Report

Department of Information Technology organized Guest Lecture in association with ISTE, IE for third & final year students on Agile Project Management with SCRUM Framework on 28 September 2024 was delivered by Mr. Gunwant Mankar, IT Manager, Bank of Baroda, Mumbai an expert in Agile methodologies. The purpose of this lecture was to introduce participants to the Agile approach to project management, with a special focus on the SCRUM framework, and to provide valuable insights into managing projects more effectively in fast-paced, dynamic environments.

The guest lecture began with a comprehensive introduction to Agile Project Management. Agile, which emphasizes iterative development, flexibility, and close collaboration between teams and stakeholders, was defined as a response to traditional, rigid project management methods.

Students had actively participated and were fully involved in the lecture. This activity is beneficial for creating great skill-building and knowledge of different management tools among students and faculty members. Dr. Mrs. S. P. Khandait, Head of Department of Information Technology presided over the program with faculty members from all the other departments. Dr. Valsson Varghese, Principal, and Dr. A. M. Badar, Vice-Principal praised efforts taken by, Prof. R. R. Kolte, Event Co-ordinator Prof. Y. D. Choudhari Event Co-coordinator for organizing this program.

KDK Engineering College hosts expert lecture on 'AI & IoT in mechanical engg'

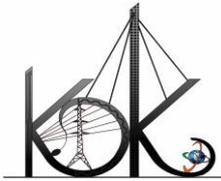

The department of mechanical engineering at **KDK College of Engineering (KDKCE)** organised an engaging and informative lecture on 'Artificial Intelligence and Internet of Things (IoT) in Mechanical Engineering' on January 3. The event featured **Prasad Kane**, a distinguished faculty member from the mechanical engineering department at **Visvesvaraya National Institute of Technology (VNIT), Nagpur**, as the keynote speaker.

The lecture, held in collaboration with **The Times of India** to commemorate **Savitribai Phule Jayanti**, shed light on the transformative potential of **AI and IoT technologies** in the field of mechanical engineering. Kane elaborated on their **diverse applications** in manufacturing industries, emphasising their role in enhancing operational efficiency and **fault detection mechanisms**. He shared detailed insights from his research, including a compelling case study on identifying faults in the gearbox system of **Mahindra & Mahindra Company**, which captivated the audience.

The event witnessed **enthusiastic participation** from both students and faculty members of the **mechanical engineering department**, who actively engaged with the topic and contributed to the **lively discussions** that followed.

The programme's successful execution was made possible through the dedicated efforts and guidance of **Vedanti Hardas, SR Ikhar** (head of the mechanical engineering department), **AM Badar** (vice-principal), and **VP Varghese** (principal). Their **collective vision** and coordination ensured that the lecture provided valuable insights and a platform for **academic enrichment**, aligning with the college's commitment to fostering innovation and **knowledge-sharing** among its community.

Number of Participants	57
Resource Person	Mr. Prathmesh Behre, Alumnus, R&D Engineer, Avantel Limited, Hyderabad Contact No.: 9284752254

Brief Information about the Activity:

Objectives	<ul style="list-style-type: none"> Students should know about Space Technology. Students should get in-depth Knowledge about the MATLAB and application of it. Students should get idea about the Recent technology.
Outcomes	<ul style="list-style-type: none"> Interactive session and knowledge sharing among students and expert. Students got aware about various problems during the use of MATLAB. Various application of MATLAB in Space Science.
Relevance to PO	PO5, PO12

Activity Report

Report

Topic: Seminar on "Introduction to MATLAB and its Application in Space Science & Technology."

Speaker: Mr. Prathmesh Behre, Alumnus, R&D Engineer, Avantel Limited, Hyderabad

Date: - 08/03/2025

Time: 12.45 pm

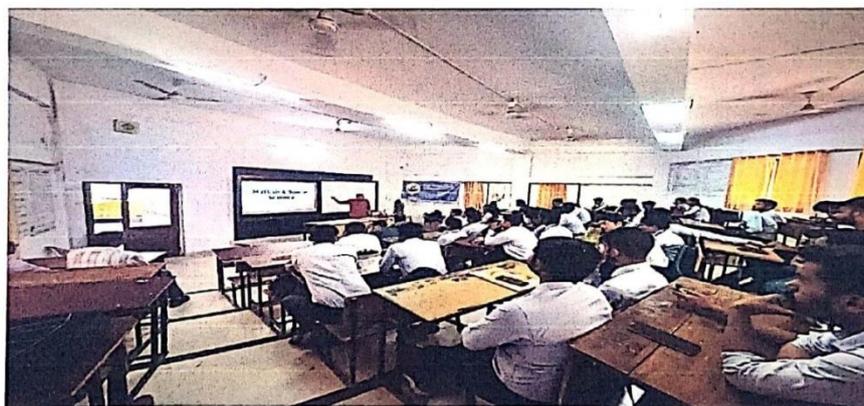

Venue: Model Class room, Department of Mechanical Engineering, K.D.K. College of Engineering, Nagpur

About the Program — Department of Mechanical Engineering, K. D. K. College of Engineering, Nagpur successfully completed the Seminar on **Introduction to MATLAB and its Application in Space Science & Technology** held on 08/03/2025 at Model Class room.

Objective: The Seminar aimed to aware the students about Space Technology, students should get in-depth Knowledge about the MATLAB and its application. Also students should get idea about the recent technology.

Acknowledgments:

We extend our sincere thanks to our **Alumnus, Mr. Prathmesh Behre** for leading this Seminar and to all student participants for their enthusiastic involvement. The success of this seminar/event underscores the collective effort taken by coordinators. The event was coordinated by Dr. P. G. Mehar, Dr. V. B. Vaidya and Head Dr. S. R. Ikhar, Teaching and non-teaching staff were present.

Report

Session 2024-2025

Course Duration: One Months (15 Jan to 3 March 2025)

Venue : Computer Lab, Department of Civil Engineering ,KDKCE, Nagpur

Introduction: The Value Added course cum Training Program of Professional drafting Using Autocad Software for 2nd year students was organized by the Department of Civil Engineering of K.D.K.College Of Engineering, in collaboration with CADD Center Dharampeth, Nagpur. Prof.Dr.Balbir Singh was the coordinator for this training program under the guidance of Dr. Swapneel Satone (Head Of Department).

The aimed of Value-added course to provide participants with a comprehensive understanding of the AutoCAD software and its importance in drafting of different structures and its components that are use in Civil Engineering. The resource person for the event was Ms. Samiksha Saoji (BE) & Mrs. Pranav Gedam (BE) who conducted the training program, covering both theoretical and practical aspects of AutoCAD 2D & 3D implementation in Civil Engineering.

Course Objectives:

The primary objective of this courseware is to teach students the basic commands necessary for professional 2D drawing, design and drafting using AutoCAD This includes:

Navigating the AutoCAD user interface

- Using the fundamental features of AutoCAD e Using precision drafting tools in AutoCAD to develop accurate technical drawings.
- Presenting drawings in a detailed and visually impressive manner

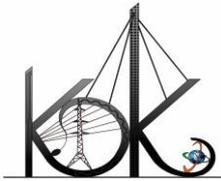

Intended Outcomes for the Course

Upon Completion of the course students will be able to:

- Utilize the power and precision of AutoCAD as a drafting and design tool used in the building design and Construction industries.
- Apply basic CAD concepts to develop and construct accurate 2D geometry through creation of basic geometric constructions.

Affiliated to Rashtrasant Tukadoji Maharaj Nagpur University

- Create, manipulate and edit 2D drawings and figures.
- Apply elements of civil drafting such as layers, dimensions, drawing formats and 2D figures in projects with a focus on AEC industry standards.

Course Activities and Design

Instructor activities:

- Provide Lecture using AutoCAD software, demonstrating commands via user interface and typed commands. Use examples and projects seen in the CAD and drafting industry.
- Demonstrate AutoCAD commands and workflow through lecture and videos.
- Show industry standard procedures to solve various drafting and CAD related industry problems.
- Oversee open lab time to assist students in assigned projects. Use question and reinforce lecture material for guiding students to complete projects.
- Coach students to instill confidence and develop the ability for self-teaching.

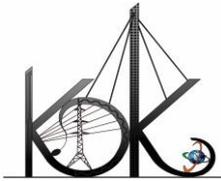

Value Added course on AutoCAD 2D & 3D Highlights:

The software course training was divided into multiple sessions covering various aspects of AutoCAD 2D & 3D software. The following topics were covered during the course:

1. Introduction to Different Drawings types use in Construction Industry.
2. Introduction to AutoCAD
3. User Interface of AutoCAD 2D
4. Creation of 2D geometries using draw & modify tool of AutoCAD 2D
5. Creation of Building floor plan using AutoCAD commands.
6. Creation of Elevation and building section using commands.
7. Creation of Table using AutoCAD commands as well as importing excel table into AutoCAD.
8. Sheet Creation using CAD.
9. Introduction to AutoCAD 3D
10. User interface of AutoCAD 3D
11. Creation of different 3D Objects like Door, Window, Furniture etc using AutoCAD 3D.
12. Application of Material texture to objects.
13. Creation of environment exposure

14. Creation of different scenes of 3D objects using Camera

15. Rendering of 3D object into AutoCAD

Demonstration of AutoCAD commands by Instructor

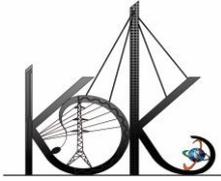

Outcome Assessment Strategies

1. Complete assignments, projects, test or quiz problems and class activities which apply real-life situations to computer aided design and drafting scenarios encountered in industry using AutoCAD.
2. Complete activities, assignments and exam, which show an understanding of AutoCAD projects and design problems related to computer aided design and drafting profession.
3. Participate in and contribute to class discussions, activities and projects

Assessment must include evaluation of the student's ability to arrive at correct drawings or designs using proper procedures and notation with AutoCAD for making 2D drawings.

Name of Activity- Value Added Course

Title- STAAD Pro Learning

Name of Expert - Er. Shivani Baisware, Trainer, SubStellar Incorporation, Nagpur

Mode of Activity- Offline

Venue- Computer Lab, Department of Civil Engineering, KDKCE, Nagpur

Duration- 10.01.2025 to 15.04.2025

No. of Participants – 33

Associating Partner - SubStellar Incorporation, Nagpur

Objectives-

1. To impart hands-on experience in analyzing and designing structures.
2. To understand the application of different load cases (dead, live, wind, seismic).
3. To perform analysis of beams, trusses, frames, and multi-storey buildings.
4. To interpret results and generate structural design reports.
5. To bridge the gap between theoretical structural analysis and real-world software application.

Outcomes-

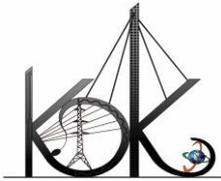

1. Enhanced software proficiency in STAAD Pro.
2. Ability to model, analyze, and design structural systems.
3. Improved employability and readiness for structural engineering roles.
4. Exposure to current industry practices and IS code-based design.
5. Students developed and submitted complete design reports using STAAD Pro.

Introduction

STAAD Pro (Structural Analysis and Design Program) is one of the most widely used structural analysis and design software globally, developed by Bentley Systems. It supports various structural formats and international design codes. With increasing demand for software proficiency in the construction and infrastructure industry, a Value Added Course (VAC) on STAAD Pro was conducted to enhance student's practical knowledge and industry readiness.

Objectives

1. To impart hands-on experience in analyzing and designing structures.
2. To understand the application of different load cases (dead, live, wind, seismic).
3. To perform analysis of beams, trusses, frames, and multi-storey buildings.
4. To interpret results and generate structural design reports.
5. To bridge the gap between theoretical structural analysis and real-world software application.

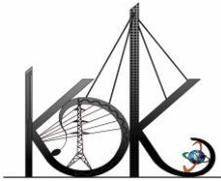

Course Outline

The course outline covered a range of topics, including but not limited to:

- ❖ Introduction to STAAD Pro: Understanding the basics of the software, its interface, and its capabilities.
- ❖ Structural Analysis Concepts: Teaching fundamental concepts of structural analysis, including loadings, supports, and reactions.
- ❖ Modelling Structures: Hands-on experience in creating 3D models of various types of structures within STAAD Pro.
- ❖ Loading and Boundary Conditions: Learning how to apply different types of loads and Constraints to the structural models.
- ❖ Analysis Procedures: Understanding the step-by-step procedures for structural analysis using STAAD Pro.
- ❖ Interpretation of Results: Interpreting and analysing the output results from STAAD Pro, including deflections, reactions, and member forces.
- ❖ Design Codes and Standards: Familiarization with the design codes and standards used in

STAAD Pro for ensuring the safety and adequacy of structures.

- ❖ Optimization and Iterative Design: Exploring techniques for optimizing structural designs and making iterative changes.
- ❖ Dynamic Analysis: Introducing dynamic analysis concepts for structures subjected to dynamic loads such as earthquakes or wind.
- ❖ Practical Applications: Showcasing real-world applications of STAAD Pro in civil engineering projects.

Key aspects covered in a STAAD Pro Value added Course

- **Introduction to STAAD Pro**
Understanding the software's interface, basic tools, and functionalities for structural analysis and design.
- **Modeling Techniques**
Learning how to create 3D models of structures, including defining nodes, beams, columns, and other structural elements.
- **Load Application**
Applying various types of loads like dead loads, live loads, wind loads, and seismic loads to the structural model.
- **Analysis Methods**
Understanding different analysis methods available in STAAD Pro, such as static analysis, dynamic analysis, and advanced analysis techniques like P-delta and geometric non-linear analysis.
- **Design Codes**
Familiarizing with different design codes used in STAAD Pro for steel, concrete, and other materials.
- **Design and Documentation**
Learning how to design structural elements like beams, columns, and slabs based on the analysis results and generating design reports.

Methodology

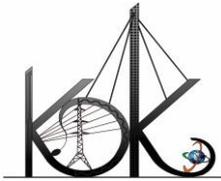

1. Live demonstrations and guided exercises.
2. Real-time modelling and simulation.
3. Assignments and quizzes for hands-on learning.
4. Group project for collaborative learning.
5. Q&A and discussion forums after each session.

Outcomes

1. Enhanced software proficiency in STAAD Pro.
2. Ability to model, analyze, and design structural systems.
3. Improved employability and readiness for structural engineering roles.
4. Exposure to current industry practices and IS code-based design.
5. Students developed and submitted complete design reports using STAAD Pro.

Conclusion

The Value Added Course on STAAD Pro Learning significantly enriched the participant's practical understanding of structural analysis and design. It provided a platform to bridge academic learning with professional software applications. The enthusiastic participation and successful completion of design projects by students marked the course as a successful initiative.

7) Innovation in Structural Repair: Methods, Material and Case Studies by Er. Ketan Mase, M/S P. T. Mase & Associates.

Report

KDK COLLEGE OF ENGINEERING
DEPARTMENT OF CIVIL ENGINEERING

Expert Guest Lecture on "Innovations in Structural Repairs,
Methods, Materials and Case Studies"
Date- 25-02-2025

Session- 2024-25

ACTIVITY REPORT

Submitted by – Dr. Vinayak D. Vaidya (Program Incharge)

Organised for- Students of VI Sem B.Tech ,Civil Engineering

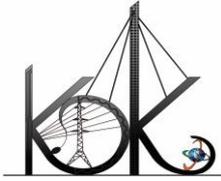

Expert Name – Er. Ketan D. Mase, M/s P.T.Mase & Associates

Program is organized for the students to gain the insights from a seasoned expert in Repairs and rehabilitation of Civil Engineering structures. Students learn about the practical approach towards the various methods, materials and case studies for repairs and rehabilitation.

Objectives of the program

To explore the latest innovations in structural repair techniques, advanced materials, and methodologies, while analyzing real-world case studies to understand their practical applications, benefits, and challenges. The study aims to:

1. Investigate cutting-edge repair methods such as fiber-reinforced polymers (FRP), carbon fiber wrapping, ultra-high-performance concrete (UHPC), and electrochemical repair techniques.
2. Evaluate the performance, durability, and cost-effectiveness of modern repair materials compared to traditional solutions.
3. Examine case studies of successful structural rehabilitation projects to identify best practices and lessons learned.
4. Assess the impact of emerging technologies, such as 3D printing, self-healing concrete, and smart monitoring systems, on structural repair and maintenance.

5. Provide insights into sustainable and resilient repair strategies for aging infrastructure, ensuring long-term safety and serviceability.

Er. Ketan D. Mase focused on various repair and rehabilitation methods, emphasizing their practical applications, which proved highly informative for all students. He also guided students on assessing the condition of existing structures through visual inspections. Additionally, Er. Ketan D. Mase highlighted the importance of Non-Destructive Testing (NDT) methods for evaluating the structural integrity of existing buildings.

Report

KDK College of Engineering, Nagpur
Department of Civil Engineering
Activity Report
Session: 2024-25

Name of Activity - Expert Lecture
Title of Lecture - Impacts of Sand Mining on the Hydromorphology Around Bridge Piers
Name of Expert - Dr. Abhijit D. Lade, Assistant Professor, VNIT, Nagpur
Date of Activity – 24.02.2025 **No. of Participants** – 52 **Venue-** Auditorium, KDKCE
Mode of Activity- Offline
Associating Partners – Indian Concrete Institute, Nagpur Chapter
Indian Water Works Association, Nagpur Chapter
Institution's Innovation Council, KDKCE, Nagpur
Internal Quality Assurance Cell, KDKCE, Nagpur
Civil Engineering Students Association, KDKCE, Nagpur

Objectives

1. To understand the fundamental concepts of hydromorphology and its significance in riverine systems.
2. To examine the impacts of sand mining on river morphology and sediment transport.
3. To analyze the effects of sediment removal on bridge piers and structural stability.
4. To explore environmental and societal consequences of excessive sand extraction.
5. To discuss sustainable sand mining practices and regulatory measures for mitigating adverse effects.

Outcomes

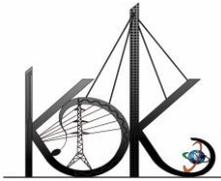

1. Participants gained a deeper understanding of hydromorphological processes and their importance in maintaining river stability.
2. Enhanced awareness of the detrimental effects of unregulated sand mining on river morphology and sediment balance.
3. Improved knowledge about the mechanisms of scouring around bridge piers and its impact on infrastructure stability.
4. Greater appreciation of the environmental and socioeconomic challenges posed by excessive sediment extraction.
5. Encouraged adoption of sustainable sand mining practices and policy advocacy for stricter regulations.
6. Engaged discussions and knowledge-sharing on real-world case studies and mitigation strategies.

Guest Lecture Report On

Impacts of Sand Mining on the Hydromorphology Around Bridge Piers

Date: 24.02.2025

Venue: Auditorium, KDKCE Campus

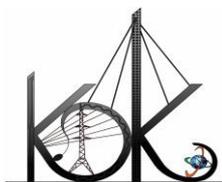

Speaker: Dr. Abhijit D. Lade, Assistant Professor, Visvesvaraya National Institute of Technology, Nagpur

Organized by: Department of Civil Engineering, K.D.K.College of Engineering, Nagpur

Introduction

A guest lecture on the impacts of sand mining on the hydromorphology around bridge piers was conducted on 24.02.2025 at Auditorium of KDKCE Campus. The session was led by Dr. Abhijit D. Lade, Assistant Professor, VNIT, Nagpur an expert in Water Resources Engineering. The lecture focused on the adverse effects of excessive sand extraction on river systems, particularly around bridge piers, and the resulting structural and ecological consequences.

“Service to the Society through Quality Technical Education”

KDK College of Engineering, Nagpur

(Accredited by NAAC & NBA - CE, EE, ME, ETC, CSE)

Approved by AICTE, Recognized by UGC under Section 2(f) of the UGC Act, 1956

Affiliated to Rashtrasant Tukadoji Maharaj Nagpur University

Objectives of the Guest Lecture

- To understand the fundamental concepts of hydromorphology and its significance in riverine systems.
- To examine the impacts of sand mining on river morphology and sediment transport.
- To analyze the effects of sediment removal on bridge piers and structural stability.
- To explore environmental and societal consequences of excessive sand extraction.
- To discuss sustainable sand mining practices and regulatory measures for mitigating adverse effects.

Highlights of the Lecture

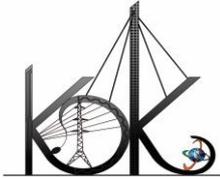

1. **Understanding Hydromorphology**
 - The speaker provided an overview of hydromorphology, explaining the relationship between river flow, sediment transport, and riverbed stability.
 - Importance of sediment equilibrium in maintaining river stability was emphasized.
2. **Effects of Sand Mining on River Morphology**
 - Excessive sand extraction alters sediment balance, leading to increased riverbed degradation.
 - Changes in flow velocity and turbulence cause scouring around bridge piers, weakening their structural integrity.
 - Reduction in sediment supply downstream leads to channel incision and bank erosion.
3. **Impacts on Bridge Piers**
 - Explained the mechanics of local scouring, which results in deepening of the riverbed around piers.
 - Highlighted case studies of bridge failures due to excessive sediment removal.
 - Discussed mitigation measures, such as riprap protection, artificial sediment replenishment, and controlled mining policies.
4. **Environmental and Societal Consequences**
 - Loss of aquatic habitats and biodiversity due to habitat destruction and altered water flow regimes.
 - Increased flood risks as river channels become unstable.
 - Socioeconomic impacts, including reduced water quality and livelihood disruptions for communities dependent on river resources.
5. **Sustainable Sand Mining Practices**
 - The speaker suggested alternative materials and sustainable extraction techniques.
 - Importance of strict regulatory frameworks and enforcement in sand mining operations.
 - Need for multi-stakeholder involvement, including government bodies, environmental agencies, and local communities.

Outcome of the Guest Lecture Objectives

- Participants gained a deeper understanding of hydromorphological processes and their importance in maintaining river stability.
- Enhanced awareness of the detrimental effects of unregulated sand mining on river morphology and sediment balance.
- Improved knowledge about the mechanisms of scouring around bridge piers and its impact on infrastructure stability.
- Greater appreciation of the environmental and socioeconomic challenges posed by excessive sediment extraction.
- Encouraged adoption of sustainable sand mining practices and policy advocacy for stricter regulations.
- Engaged discussions and knowledge-sharing on real-world case studies and mitigation strategies.

Conclusion

The guest lecture was highly informative and interactive, with students and faculty members engaging in discussions on the topic. The insights shared by the expert emphasized the need for responsible mining practices to ensure the safety and longevity of bridge structures. The session concluded with a vote of thanks to the esteemed guest speaker for sharing their valuable expertise.

Subject: Invitation for Guest Lecture

Dear Sir,

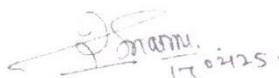

I hope this letter finds you well. On behalf of Department of Civil Engineering, K.D.K. College of Engineering, Nagpur, I am pleased to invite you as a distinguished speaker in the field of Water Resources Engineering, scheduled on **24.02.2025** at **Auditorium, KDKCE**.

We would be honored if you could accept our invitation and share your knowledge with us.

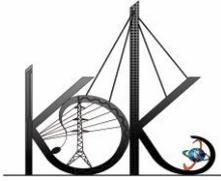

Looking forward to your positive response.

Warm regards,

Dr. Ashay D. Shende

9) Expert Talk on "Industrial BIM Technology"

Notice

**KDK COLLEGE OF ENGINEERING
CIVIL ENGINEERING DEPARTMENT
SESSION – 2024-25
Expert Talk Notice**

All the students of VI and VIII semester B. Tech are hereby informed that an Expert Talk on the topic "**Industrial BIM Technology**" by **Mr. Vijay Purohit**, Business development Head, F6 Design and Training Solutions, Nagpur will be organized as per the following details:

Speaker: Mr. Vijay Purohit

Date: 11-02-2025

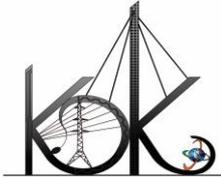

Time: 1:15 p.m. onwards

Venue: Room No. A123

Attendance is mandatory.

Dr. Pallavi Bisen

10) Expert Lecture on New Career Opportunities in the Field of Python Developer."

Notice

K.D.K. College of Engineering, Nagpur

Department of Computer Science & Engineering

Notice

Date: 20/01/2025

All students of the Computer Science & Engineering Department, KDKCE, Nagpur, We are pleased to announce an upcoming **Expert Lecture on New Career Opportunities in the Field of Python Developer**. This session will offer valuable insights into the rapidly growing demand for Python developers and the career paths available in this field.

Key Highlights of the Lecture:

- Understanding the scope and future of Python development
- Exploring career opportunities and job roles
- Key skills required for success in the Python development industry
- Guidance from an expert in the field

Date: 21 Jan 2025

Time: 2:00 Pm to 3:00 Pm

Venue: Class Room B-116

Speaker: Firozuddin Sayyed

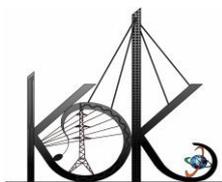

This lecture is open to all students interested in exploring new career prospects in the field of Python development. Don't miss the chance to interact with industry experts and gain a deeper understanding of this promising career path.

Dr. A. A. Jaiswal

Activity Report

KDK College of Engineering, Nagpur Department of Computer Science & Engineering Activity Report (2024-25)

Category of the Activity:	Expert Lecture
Title of the Activity	“New Career Opportunity in the Field of Python Developer”
Coordinator	Dr. K. S. Chandwani , Prof. S.A.Kurzadkar, Prof. S.B.Verma
Date of Activity	21 Jan 2025
No. of Students Involved:	Male: 19 Female: 17 Total: 36

Details of Invited Speaker	Mr. Firozuddin Sayyed Alinfo System
----------------------------	--

Brief about an Activity:	The expert lecture on "New Career Opportunities in the Field of Python Developer" provided insights into the growing demand for Python developers in various industries, including AI, data science, and web development. It highlighted emerging career paths, skillsets needed, and strategies for staying competitive in this dynamic field.
--------------------------	---

Objectives:	The objectives of the expert lecture on "New Career Opportunities in the Field of Python Developer" were to explore the expanding job roles in Python development, identify key skills and technologies in demand, and guide attendees on how to leverage Python for career growth in fields like data science, AI, and automation.
-------------	---

Outcomes:	<ul style="list-style-type: none"> • Increasing Demand: Python developers are in high demand across industries like AI, data science, and web development. • Diverse Career Paths: Opportunities exist in specialized fields such as machine learning, automation, and data engineering. • Flexibility and Growth: Python offers career advancement with flexible work options and continuous learning opportunities.

Session 2024-2025
Activity Report

Date – 22/01/2025

The Computer Science & Engineering Department of KDK College of Engineering, Nagpur, and An expert lecture on "New Career Opportunities in the Field of Python Developer" was conducted on 21 Jan 2025 to provide students with valuable insights into the growing demand for Python developers and the potential career paths available in this field. The lecture aimed to explore the scope of Python programming, the skills required to pursue a career in this domain, and the opportunities available for fresh graduates and professionals looking to specialize in Python development.

The lecture covered several important topics that are essential for aspiring Python developers. The lecture attracted a large number of students, many of whom were keen to learn more about career prospects in Python development. Throughout the session, students actively participated by asking questions, seeking career advice, and discussing various aspects of Python development. The speaker was highly interactive, providing detailed responses and offering career guidance.

The expert lecture provided invaluable insights into the rapidly expanding field of Python development. Students gained a deeper understanding of the career opportunities available, the skills required, and how to prepare themselves for a successful career in this domain. The lecture also emphasized the importance of continuous learning and staying updated with the latest developments in Python programming and related technologies.

The event concluded with a Q&A session, where students were encouraged to ask questions and clarify doubts. The feedback received from the participants indicated a high level of satisfaction with the lecture, and many expressed interest in further exploring Python as a career path.

Dr. V. P. Varghese, Principal of KDKCE, Dr. A. M. Badar, Vice Principal of KDKCE and Dr. A. A. Jaiswal, HOD of CSE Department appreciated the initiative taken for the program.

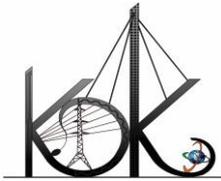

Dr. K. S. Chandwani, Prof. S.A. Kurzadkar & Prof. S.B.Verma Department of Computer Science & Engineering coordinate the program well. Prof.,A. Kuthe, Prof. V. R. Surjuse, Dr. A. Bhange, Prof. A. Nachankar, Prof. P.R. Singam, Prof. & other staff members guided the team member and also taken efforts for the success of the Event.

After this Activities the following POs were attained

Notice

**K.D.K. College of Engineering, Nagpur
Department of Computer Science & Engineering**

Notice

Date: 19/03/2025

We are pleased to inform all students that the Department of Computer Science & Engineering has organized an Expert Lecture on "Deep Learning", an essential area of Artificial Intelligence (AI) that is shaping the future of technology across various industries. This seminar will cover the fundamentals of deep learning, its applications, and the latest advancement in the field.

Date: 21 March 2025

Time: 12:00 pm to 1:00 pm

Venue: CSE Seminar Hall. (B-217)

This seminar is open to all students interested in exploring the field of Artificial Intelligence and machine learning.

Report

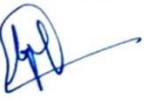

KDK College of Engineering, Nagpur Department of Computer Science & Engineering Activity Report (2024-25)

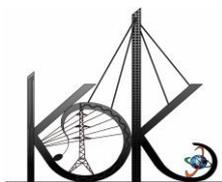

Category of the Activity:	Expert Lecture
Title of the Activity:	“ Deep Learning”
Coordinator	Dr. K. S. Chandwani , Prof. S.A.Kurzadkar, Prof. S.B.Verma
Date of Activity	21 March 2025
No. of Students Involved:	Male: 31 Female: 28 Total: 59
Details of Invited Speaker	Dr. Manish Kurhekar (Associate Prof) Department of Computer Science and Engineering VNIT, Nagpur.

Brief about an Activity:	Deep learning is a branch of machine learning that uses neural networks with multiple layers to analyze and process large datasets. It allows systems to automatically learn from data, improving accuracy over time without needing explicit programming. This technique is widely used in applications like image recognition, speech processing, and natural language understanding. Deep learning has enabled advancements in AI, driving innovation in fields like healthcare, finance, and autonomous driving.
--------------------------	--

Objectives:	The main objectives of deep learning are to enable machines to learn from large datasets, identify complex patterns, and make accurate predictions. It aims to enhance AI performance in areas like image recognition, speech processing, and natural language understanding. Ultimately, deep learning seeks to improve automation and decision-making across various industries.
-------------	--

Outcomes:	The outcomes of the seminar on deep learning for students include gaining foundational knowledge of neural networks and their applications in various fields. Students will understand key concepts such as training models, optimization techniques, and real-world applications in AI. The seminar will also inspire students to explore advanced topics and potential career opportunities in the rapidly evolving field of deep learning.

Department of Computer Science & Engineering
Session 2024-2025
Activity Report**

Date – 22/03/2025

Computer Science & Engineering Department of KDK College of Engineering, Nagpur organized a seminar on "Deep Learning" on 21st March 2025 at 12:00 pm to 1:00 Pm.

All the students are actively participated in the seminar. Dr. Manish provided an overview of the fundamentals of neural networks and explained how deep learning differs from traditional machine learning methods.

Deep learning is a specialized branch of machine learning that mimics the structure and function of the human brain through artificial neural networks. It is especially powerful in analysing large and complex datasets. Deep learning models consist of multiple layers of neurons that learn data representations at different levels of abstraction.

One of the key strengths of deep learning is its ability to automatically extract features from raw data, eliminating the need for manual feature engineering. This has led to breakthroughs in fields like image recognition, speech processing, language translation, and autonomous vehicles.

Popular deep learning architectures include Convolutional Neural Networks (CNNs) for image-related tasks and Recurrent Neural Networks (RNNs) for sequential or time-series data. More advanced models like Transformers have significantly improved performance in natural language processing.

Training deep learning models requires large datasets and high computational power, often using GPUs. Libraries such as TensorFlow, PyTorch, and Keras have made it easier to build and train these models.

Despite their accuracy, deep learning models can be seen as "black boxes" due to limited interpretability. Researchers are actively working on improving transparency, reducing data requirements, and enhancing model efficiency.

Overall, the seminar was highly educational and provided us with valuable insights into the real-world applications of our academic learning

Dr. V. P. Varghese, Principal of KDKCE, Dr. A. M. Badar, Vice Principal of KDKCE and Dr. A. A. Jaiswal, HOD of CSE Department appreciated the initiative taken for the program.

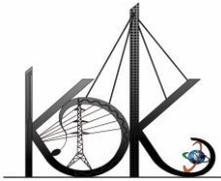

Dr. K. S. Chandwani, , Prof. S.A. Kurzadkar & Prof. S.B.Verma Department of Computer Science & Engineering coordinate the program well. Prof.,A. Kuthe, Prof. V. R. Surjuse , Dr. A. Bhange , Prof. A. Nachankar, Prof. P.R. Singam, Prof. & other staff members guided the team member and also taken efforts for the success of the Event.

After this Activities the following POs were attained
